

FROM REMEDICATION PLUS

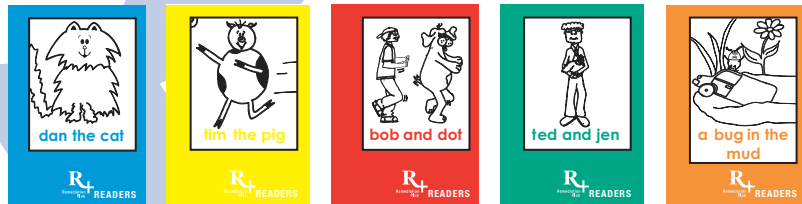

The EARLY LANGUAGE CURRICULUM *to prevent reading and spelling failure!!!*

The R+ Early Language Manual is geared to support teachers. The scientific research from both Dr. Samuel Orton and the National Institute of Child Health and Development have given us enough pertinent, empirically-proven research on reading that, if we conscientiously follow their directive, we can avoid the high risks of reading failure that exist today!

Buy the Remediation Plus Early Language Curriculum for your classroom! Based on phonemic awareness training and multisensory systematic explicit synthetic phonics.

R+ Readers are a perfect complement to the Early Language Curriculum

The Remediation Plus System is unique in the fact that it wishes to achieve both reading and spelling proficiency through the implementation of research.

Unit 1: Phoneme grapheme correspondence and multisensory handwriting for the alphabet.

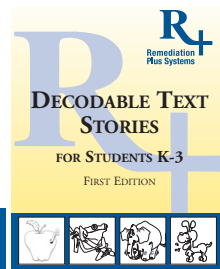

Unit 2: Read and Spell - Segmentation and blending of CVC words and sentences.

Unit 3: Consonant blends.

Unit 4: Teaching and Writing Capital Letters
