

Remediation Plus Systems

PRODUCT SHEET

Helping Teachers Implement SBRR

THE R+ SYSTEM

Assisting teachers to teach research based reading and spelling on a clinically developed comprehensive curriculum (multisensory explicit systematic synthetic phonics).

The R+ System teaches the 44 speech sounds in a systematic curriculum. Every lesson has direct instruction in hearing the phoneme, developing the phoneme grapheme correspondence and segmenting the phonemes from speech. We teach students that the grapheme of phonemes changes on placement. We also teach students the rules of the English Language. There are 7 rules in total and each lesson has been fully developed clinically. The R+ System systematically teaches the students the 6 lessons on syllables for their success in both reading and spelling of multisyllabic words. The Remediation Plus System has 85 sequential lessons which deconstruct and reconstruct 90 per cent of the English Language. Even the sight word list is short and the words can be partially decoded with the alphabetic principles. Fluency training is achieved through brain based activities and repeated readings

Research of the NICHD spearheaded by Dr Reid Lyon has shown that comprehension increases dramatically with decoding fluency and automaticity. The National Reading Panel, Reading Rockets and Reading First documents all have great information for teaching comprehension, the most difficult task is actually teaching children to read and spell. Vocabulary growth is enhanced dramatically through the capacity to read and spell fluently. Again the aforementioned documents contain great information on how to teach vocabulary.

Finally, Remediation Plus Systems bring to the market a product that will ease dramatically the teaching of reading from an osmosis strategy to a scientific process.

R+ SYSTEM

The system includes: 3 Binders with 85 systematic lesson plans

- R+ phoneme cards
- Training & Testing Manuals
- Multisensory Grammar Curriculum
- Training CD-ROMs
- Lesson visuals
- Early Language Curriculum
- 5 Basal Readers
- Slingerland visuals

PRODUCT #01

EARLY LANGUAGE CURRICULUM

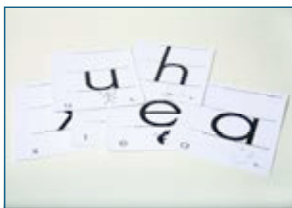

Teacher's Kit

This set includes:

- ELC Teachers' curriculum
- 1 set of workbooks
- 1 set of CVC readers
- 1 set of Consonant Blend readers
- Lower case Slingerland-style letter cards

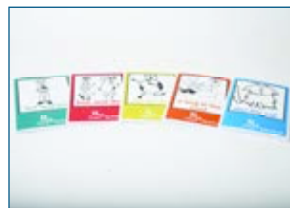

PRODUCT # 02

SLINGERLAND-STYLE LOWER CASE TEACHING CARDS

Helps teachers teach the shape of the letter and connect it to the phoneme.

PRODUCT #03

CVC READERS

Decodable text for each vowel. For emergent readers.

PRODUCT #04

CONSONANT BLEND READERS

Decodable Text for back blends then front blends.

PRODUCT #05

EARLY LANGUAGE CURRICULUM WORKBOOKS

To accompany the Early Language Curriculum.

PRODUCT #06

CAPITAL LETTER WORKBOOK

For teaching capitals after all lower case letters have been mastered.

PRODUCT #07

SLINGERLAND-STYLE UPPER CASE LETTER

Helps teachers teach the shape of the Capitals and teach students where to use the capitals.

PRODUCT #08

THE HAWK AND THE GOAT READER

A celebration of the end of Remediation Plus System's Binder 1.

PRODUCT #09

DECODABLE TEXT STORIES

Stories for each of the first 32 lessons in the Remediation Plus System.

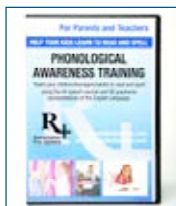

PRODUCT #10

TEACHER TRAINING CDs

5 hours of model lesson plans.

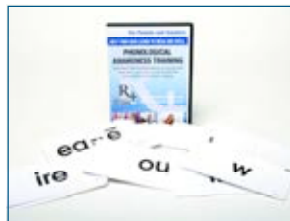

PRODUCT #11

DVD ~ PHONOLOGICAL AWARENESS TRAINING

Teaching teachers their 44 speech sounds and 90 graphemes and their articulation. (84 minutes)

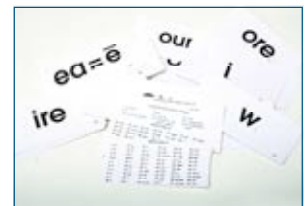

PRODUCT #12

DVD WITH PHONEME CARDS

Our Phonological Awareness Training DVD with a deck of R+ Phoneme Cards.

PRODUCT #13

PHONEME CARDS

The 44 speech sounds and 90 graphemes of the English language.

PRODUCT #14
